

1 objection to having boards for all of them. It might
2 be better. That isn't the point at all. What Mrs. Maurer,
3 and I think those who are interested, or all of us are dri-
4 ving at is this, that we wanted the board, we want the
5 chief professional officer not to be selected politically
6 or by any device except by a board.

7 Now, we don't care if all the rest of this
8 goes into that or not.

9 THE CHAIRMAN: Delegate Pullen, the Chair
10 suggests to you the first sentence in 4.20 as rewritten in
11 the amendment would not apply at all to the state public
12 school system or institutions of higher education.

13 Delegate James.

14 DELEGATE JAMES: Mr. Chairman, that is in 4.21.
15 The education people are very well taken care of there
16 in this article. They are in a very preferred position, if
17 you would read the article.

18 THE CHAIRMAN: That is what I understood Delegate
19 Maurer to point out some time ago. This section, Delegate
20 Pullen, if amended, as provided in the amendment offered
21 by Delegate Maurer, would not apply to the state public
school system or to the institutions of higher education.
